

# Theoretical Studies of the Propylene Oxide Opening Reaction Mechanism in the Copolymerization of CO<sub>2</sub> with Epoxides Process Catalyzed by a Cobalt(III) Complex with Salen Ligand: Unraveling the Computational Complexity

*Thursday, 14 March 2024 11:20 (15 minutes)*

Olga Żurowska, Artur Michalak

**Presenter:** ŻUROWSKA, Olga

**Session Classification:** S2 - Contributed session
