S6 - Contributed session (10:35 - 12:35)

time	[id] title	presenter
10:35	[27] LUMI, the Elder Brother of Helios	SZPINDLER, Maciej
10:50	[28] Numerical Simulations of Short and Long Gamma-Ray Bursts on the Ares Supercomputer	URRUTIA, Gerardo
11:05	[29] Viscous Torque in Turbulent Magnetized AGN Accretion Disks and Its Effects on EMRI's Gravitational Waves	JANIUK, Agnieszka
11:20	[30] Analysis of Accelerated Particles in PIC Simulations by Using Neural Networks	TORRALBA PAZ, Gabriel
11:35	[31] Particle-In-Cell Simulations of Merger Shocks in Galaxy Clusters	KOBZAR, Oleh
11:50	[32] Performance of LLAMA Large Language Model in Argument Detection	KARWATOWSKI, Michał
12:05	[33] Performance of Benchmarking Continual Curriculum Learning	KARWATOWSKI, Michał
12:20	[34] Comparison of GPU and CPU Implementations of New Variants of SDLS Algorithms for LABS Problem
