

Emerald: A fresh start
to make your research
count

Exploring opportunities of a new partnership with Emerald

About us – we're passionate about...

Bringing research to life to help people make decisions that change their world for the better

We are open to all...

At Emerald we are open to all when it comes to our open access routes to publication.

- We believe in driving innovation in open publishing models. We seek to respond specifically to the **needs of researchers in the disciplines we serve**.
- Emerald is committed to working with libraries, policy makers, funders, end users, publishers to recognize the mutual contributions made to the scholarly communications system, and with sustainability as the key goal for all.
- Emerald understands that 'Open' means more than just open access, it is also about extending the **reach and impact** of research beyond academia, making it accessible, digestible and discoverable.

Emerald are signatories of the SDG publisher's compact

We're a founding signatory of the United Nations Sustainable Development Goals (UN SDGs) Publishers Compact, designed to inspire action among publishers, and accelerate progress to achieve the Sustainable Development Goals by 2030.

- 62% of our journals are mapped to one or more of the SDGs
- Mission-led research sits at the heart of Emerald's intent
- Think about how your research can progress the SDGs

eJournals from Emerald

Emerald journals are a core part of library resources for universities around the world

Winner

ipa²⁰ 2020
Independent Publisher of the Year

The Ingram Content Group
Independent Publisher of the Year

Our four interdisciplinary goals:

Fairer Society

Healthier Lives

Responsible Management

Quality Education for All

Reaching beyond the restrictions of traditional subject disciplines, Emerald is committed to publishing **high quality, mission-led research** that inspires positive change in society and addresses real world problems.

Emerald is a founding signatory of the **United Nations Sustainable Development Goals (UN SDGs) Publishers Compact**, which is designed to inspire action among publishers, and accelerate progress to achieve the **Sustainable Development Goals by 2030**.

eJournal subscription features

Subscription Journal articles were downloaded over **36 million times** in 2021 - over **90% of users** to Emerald Insight download content.

Open at Emerald

OA Journals

Authors can publish open access within any Emerald journal. All 300+ titles include the option to publish gold open access.

Green

Our Green Open Access route offers all Emerald journal and book chapter authors the option to make their research openly available, free from payment and embargo periods.

Hybrid

Subscription journals that allow authors to publish open access following the payment of an article publishing charge (APC). This is an option within ScholarOne when an author submits their article.

Fully Gold Open

We currently have two fully OA journals (International Journal of Climate Change Strategies and Management and Mental Illness) where all content is published open access subject to payment of an APC. These journals follow the same rigorous peer review process as our subscription journals.

Our EPS journals are also fully open and also known as platinum journals as they're sponsored by an institution or association. They subsidise the APC meaning that author doesn't pay.

OA benefits

As open access research is freely available without restrictions, there are multiple benefits.

Researchers in developing countries can see your work as it is not behind a paywall that can be prohibitive to people in some parts of the world

More exposure for research findings

Practitioners can apply research findings

Taxpayers get value for money as publicly funded research is made freely available to help the advancement in critical areas

OPEN  **ACCESS**

More people can talk, discuss and share the research leading to improvement in a range of metrics and driving impact

Compliant with grant rules

Public can access findings

Research can influence policy

Sub journal process

(VoR)

OPEN
to all

We would like to partner with the Polish universities to provide affiliated authors with an agreed number of APC vouchers

Eligibility – CORRESPONDING AUTHORS affiliated to the member universities would be eligible for an APC voucher which will be applied at the point of which the article is accepted. **Vouchers are allocated on a first come, first serve basis.**

Vouchers can be used for publishing in our hybrid and fully open access journals.

How to use your open access publishing voucher – On acceptance of the article the system will automatically recognize your institution and offer a voucher. **Authors must select the voucher option and confirm the CC BY4.0 license.**
