

EOSC Beyond Workshops: User stories, standards, and PoC development.

Report of Contributions

Contribution ID: 16

Type: **not specified**

Presentation of pilots user stories: breakdown of core services and integration with sandbox and other exchange services offered and consumed from other nodes.

Tuesday, 11 March 2025 10:30 (3h 30m)

Session Classification: Pilot user stories and technical support assignment

Contribution ID: 17

Type: **not specified**

Assignment of a technical expert to each Pilot to provide support and implement the technical plan.

Tuesday, 11 March 2025 15:00 (2 hours)

Based on the technical expert's availability and the prioritisation and breakdown of user stories, the crowd will be divided into groups aligned with the actual use cases to work on the implementation plans (to be continued in a more detail during the Wednesday afternoon session)

Session Classification: Pilot user stories and technical support assignment

Contribution ID: **18**Type: **not specified**

Structured discussion on the exchange services

Wednesday, 12 March 2025 09:15 (3h 30m)

The session facilitates discussions on node-to-node exchange services integration. Participants will have the opportunity for bilateral 30-minute discussions with the nodes they need to engage with, switching as needed. Additionally, a pre-booking option allows for dedicated two-hour sessions between specific nodes to enable more focused and planning.

Session Classification: 2

Contribution ID: **19**

Type: **not specified**

One-on-one integration tables between Pilots and specific core services teams

Wednesday, 12 March 2025 14:15 (3 hours)

Session Classification: Core service integration rotations

Contribution ID: 20

Type: **not specified**

**Group discussions centred on a single core service
(e.g., AAI), bringing together all Pilots integrating
with that service.**

Wednesday, 12 March 2025 14:15 (3 hours)

Session Classification: Core service integration rotations

Contribution ID: 22

Type: **not specified**

Summary and quick round of introductions

Tuesday, 11 March 2025 10:00 (30 minutes)

Session Classification: Pilot user stories and technical support assignment
